IAS - 67/67  
23 October 1967

MEMORANDUM FOR: Director of Economic Research  
SUBJECT: Recent OER Briefing of IAS Personnel on Damage Assessment Project

25X1A9a

1. I want to convey my appreciation for the briefing and discussion which [REDACTED] and his colleagues conducted here in IAS last Wednesday. Their visit, at my request, was intended to re-acquaint IAS managers with the damage assessment managers in OER, to give IAS workers a better appreciation of the methodological framework within which our input makes its contribution, to fill IAS personnel in on the results and uses of the analysis, and to discuss substantive questions and problems.

2. The meeting was a great success from our point of view. Almost all the IAS people who contribute to the damage assessment work attended. Many comments afterwards indicated improved understanding of the significance of the work and a high degree of respect for the OER personnel who had so effectively discussed the broad aspects of the assessment.

3. My thanks to Frank and his colleagues\*
